

To your benefit. Worldwide.

Customs Union Market Approvals Russia, Kazakhstan, Belarus, Armenia, Kyrgyzstan

The favourable geographic positions between western and eastern economic regions as well as good trade relations make the countries of the Customs Union attractive targets for European manufacturers and exporters.

Legal basics.

As a manufacturer or exporter you need a declaration of compliance or a certificate for many products. DIN CERTCO supports you in procuring this proof of compliance.

Whether or not your product requires certification may be determined by the customs tariff code and meaningful technical information in general.

Applicable safety requirements for products are defined in the product-specific Technical Regulations (TR) of the Customs Union. Only products which fulfill the requirements of the Technical Regulations may be marketed in the Customs Union.

Before placing on the market, the products must be labelled with the "EAC" compliance mark.

Proof of compliance can be provided only by testing in a certification and testing office accredited and located in one of the Customs Union countries.

Furthermore, the compliance proof can only be applied for by a legal or natural person registered in the Customs Union area.

Our service for you.

We assist you and your products on the trip to the Customs Union all the way to completion of the contract.

DIN CERTCO offers you the EAC proof of compliance in accordance with the following "Technical Regulations".

- On safety of Low-voltage equipment (TR CU 004/2011)
- On safety of machinery and equipment (TR CU 010/2011)
- On safety of the equipment for operation in explosive atmospheres (TR CU 012/2011)
- On safety of devices operating on gaseous fuel (TR CU 016/2011)
- On safety of light industry products (TR CU 017/2011)
- Hardware electromagnetic compatibility (TR CU 020/2011)
- On the safety of furniture products (TR CU 025/2012)
- On safety of pressure equipment (TR CU 032/2013)

We offer you further certifications, beyond obligatory Customs Union approvals. This includes

- National approvals
- GOST R certificate
- Fire protection certification
- Government registration of products/hygiene certification
- Registration of medical devices
